**“Toni Morrison’s Posse [Ruby, Oklahoma] Meets the Baad-ass Men of Eloy
Arizona: A Juxtaposition of the Black Western Male ”**

This presentation will draw comparisons between the western psyche of Black machismo as well as the romantic notions of power and patriarchy. Writer Toni Morrison’s novel, *Paradise*, examines this phenomenon in fiction, but readers soon realize that this reality is in our own backyard just a few miles away, in Eloy, Arizona.
